What is Mortgage Protection Insurance?

As a homeowner, being able to pay your mortgage every month is important. What would happen to your loved ones if tragedy were to strike and you were no longer around to help pay the bills? Nobody knows what the future holds, but you can achieve peace of mind today with **mortgage protection insurance**.

Mortgage protection insurance is a term life policy designed to pay off your mortgage. You purchase a policy for a set term (usually 10-30 years), make monthly payments, and if you pass away while the policy is in force, your beneficiary receives funds to pay off the mortgage. This coverage can also account for loss of income due to disability or critical illness.

"When a lifelong friend passed away, I saw his family struggle to keep their home and maintain their way of life. I decided then that I wouldn't let that happen to my family. And now that I have a policy, it won't."
